

# THE SCARRED

## FOR IMMEDIATE RELEASE: THE SCARRED NOW BOOKING LIMITED EAST COAST TOUR DATES

Southern California's infamous Punkrocknroll band THE SCARRED announces a limited amount of East Coast tour dates between July 8-20th with Florida's THE NEW THREAT, Sponsored by DNA Energy Drink. This will be The Scarred's first time back on the East Coast since 2006's sold out "Bloody Solution" tour with former PunkCore labelmates Cheap Sex, and the first tour to support their third full length, "At Half Mast," released on the seminal California label, Basement Records.

The Scarred had previously announced that there would be no tour dates this year so that members could work on their side projects: drummer BEN 9000 (Rezurex, Killavox, Jeffrey Star) is currently on an international tour with "Jeffrey Star," their Bass player is currently in Washington state avoiding some sticky California warrants, and Stand-in Bassist Byron Sinn (Prima Donna, Destruct) has been recording with his full time LA hardcore punk act "Destruct." New rhythm guitarist Nathanael Felon has been recording with his band "The Martyrs."

According to a recent Myspace Blog, The Scarred is also busy spending the rest of 2010 writing "the best fucking punknroll record that we can pump out" for a fall recording deadline - so make sure to catch these limited dates!
